MAGNETIC RESONANCE IMAGING
Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

2471M1202X Magnetic Resonance Imaging Radiologic Technologist

Taxonomy Code	2471M1202X
Status	Active
Level	Level III Area of Specialization
Short Name	Magnetic Resonance Imaging
Full Name	Magnetic Resonance Imaging Radiologic Technologist
Level I, Provider Grouping	Technologists, Technicians & Other Technical Service Providers
Level II, Classification	Radiologic Technologist
Description	A radiologic technologist who specializes in magnetic resonance imaging (MRI) and is appropriately educated and trained, consistent with nationally recognized standards, state statute, and facility policy in performance of MRIs, exam techniques, equipment protocols, radiation safety, and patient care.
Additional Information	Source: American Society of Radiologic Technologists, https://www.asrt.org/ [1/1/2024 Definition modified]

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
