261QM1102X

MILITARY OUTPATIENT OPERATIONAL (TRANSPORTABLE) COMPONENT

Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

261QM1102X Military Outpatient Operational (Transportable) Component Clinic/Center

Taxonomy Code	261QM1102X
Status	Active
Level	Level III Area of Specialization
Short Name	Military Outpatient Operational (Transportable) Component
Full Name	Military Outpatient Operational (Transportable) Component Clinic/Center
Level I, Provider Grouping	Ambulatory Health Care Facilities
Level II, Classification	Clinic/Center
Description	"Non-fixed" facilities or distinct parts of a "non-fixed" facility, providing outpatient medical and dental services, primarily intended for DoD active duty. The entity is funded with other than Defense Health Program funding. Non-DoD active duty may receive services from this entity. "Non-fixed" facilities are generally deployed DoD health care activities, not providing services on or in association with a DoD fort or base. "Non-fixed" facilities include outpatient services furnished onboard ships. "Non-fixed" facilities also include deployed clinics. Does not include items issued directly to a patient from an outpatient pharmacy or patient transport.
Additional Information	[1/1/2005: title modified, definition added]

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
