G0328

COLORECTAL CANCER SCREENING; FECAL OCCULT BLOOD TEST, IMMUNOASSAY, 1-3 SIMULTANEOUS

Healthcare Common Procedure Coding System

The Healthcare Common Procedure Coding System (HCPCS) is a collection of codes that represent procedures, supplies,products and services which may be provided to Medicare beneficiaries and to individuals enrolled in private health insurance programs. HCPCS codes primarily correspond to services, procedures, and equipment not covered by CPT® codes.

G0328 Colorectal cancer screening; fecal occult blood test, immunoassay, 1-3 simultaneous

HCPCS Code	G0328	The Healthcare Common Prodecure Coding System (HCPCS) is a collection of codes that represent procedures, supplies, products and services which may be provided to Medicare beneficiaries and to individuals enrolled in private health insurance programs.The codes are divided into two levels, or groups, as described Below: Level I Codes and descriptors copyrighted by the American Medical Association's current procedural terminology, fourth edition (CPT-4). These are 5 position numeric codes representing physician and nonphysician services. **** NOTE: **** CPT-4 codes including both long and short descriptions shall be used in accordance with the CMS/AMA agreement. Any other use violates the AMA copyright. Level II Includes codes and descriptors copyrighted by the American Dental Association's current dental terminology, seventh edition (CDT-2011/12). These are 5 position alpha-numeric codes comprising the d series. All other level II codes and descriptors are approved and maintained jointly by the alpha-numeric editorial panel (consisting of CMS, the Health Insurance Association of America, and the Blue Cross and Blue Shield Association). These are 5 position alpha- numeric codes representing primarily items and nonphysician services that are not represented in the level I codes.
