103K00000X
BEHAVIOR ANALYST
Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

103K00000X Behavior Analyst

Taxonomy Code	103K00000X
Status	Active
Level	Level II Classification
Short Name	Behavior Analyst
Full Name	Behavior Analyst
Level I, Provider Grouping	Behavioral Health & Social Service Providers
Level II, Classification	Behavior Analyst
Description	A behavior analyst is qualified by at least a master's degree and Behavior Analyst Certification Board certification and/or a state-issued credential (such as a license) to practice behavior analysis independently. Behavior analysts provide the required supervision to assistant behavior analysts and behavior technicians. A behavior analyst delivers services consistent with the dimensions of applied behavior analysis. Common services may include, but are not limited to, conducting behavioral assessments, analyzing data, writing and revising behavior-analytic treatment plans, training others to implement components of treatment plans, and overseeing implementation of treatment plans.
Additional Information	Source: Association of Professional Behavior Analysts, www.apbahome.net and Behavior Analyst Certification Board (http://www.bacb.com) [7/1/2008: new, 1/1/2016: modified definition]

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
