103TC2200X
CLINICAL CHILD & ADOLESCENT
Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

103TC2200X Clinical Child & Adolescent Psychologist

- 2 -

Taxonomy Code	103TC2200X
Status	Active
Level	Level III Area of Specialization
Short Name	Clinical Child & Adolescent
Full Name	Clinical Child & Adolescent Psychologist
Level I, Provider Grouping	Behavioral Health & Social Service Providers
Level II, Classification	Psychologist
Description	A psychologist who develops and applies scientific knowledge to the delivery of psychological services to infants, toddlers, children and adolescents within their social context. Of particular importance to the specialty of clinical child psychology is an understanding of the basic psychological needs of children and adolescents, and how the family and other social contexts influence the socio-emotional adjustment, cognitive development, behavioral adaptation and health status of children and adolescents.
Additional Information	Source: American Psychological Association, www.apa.org [1/1/2007: title modified, 1/1/2019: new definition] | | Additional Resources: The APA specialty is "Clinical Child Psychology."

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
