Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

103TP0814X Psychoanalysis Psychologist

<i>Taxonomy Code</i>	103TP0814X
<i>Status</i>	Active
<i>Level</i>	Level III Area of Specialization
<i>Short Name</i>	Psychoanalysis
<i>Full Name</i>	Psychoanalysis Psychologist
<i>Level I, Provider Grouping</i>	Behavioral Health & Social Service Providers
<i>Level II, Classification</i>	Psychologist
<i>Description</i>	A psychologist whose specialty is distinguished from other specialties by its body of knowledge and its intensive treatment approaches. It aims at structural changes and modifications of a person's personality. Psychoanalysis promotes awareness of unconscious, maladaptive and habitually recurrent patterns of emotion and behavior, allowing previously unconscious aspects of the self to become integrated and promoting optimal functioning, healing and creative expression.

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
