|-----------------------------------|--|
| <i>Taxonomy Code</i>              | 132700000X   |
| <i>Status</i>                     | Active   |
| <i>Level</i>                      | Level II Classification  |
| <i>Short Name</i>                 | Dietary Manager  |
| <i>Full Name</i>                  | Dietary Manager  |
| <i>Level I, Provider Grouping</i> | Dietary & Nutritional Service Providers  |
| <i>Level II, Classification</i>   | Dietary Manager  |
| <i>Description</i>                | A dietary manager is a trained food services professional who is charged with maintaining cost/profit objectives, purchasing foods and services for the department and supervising staff.. Dietary managers are trained to understand the basic nutritional needs of clients and work in partnership with dietitians, who offer specialized nutritional expertise. The CDM certified dietary manager designation is an advanced professional credential awarded to dietary managers who have completed specific course work, have passed the national credentialing exams (including a sanitation and safety exam) and have applied for certification. |

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
