Description	Reflexologists perform a non-invasive complementary modality involving thumb and finger techniques to apply alternating pressure to the reflexes within the reflex maps of the body located on the feet, hands, and outer ears. Reflexologists apply pressure to specific areas (feet, hands, and ears) to promote a response from an area far removed from the tissue stimulated via the nervous system and acupuncture meridians. Reflexologists are recommended to complete a minimum of 200 hours of education, typically including anatomy & physiology, Reflexology theory, body systems, zones, meridians & relaxation response, ethics, business standards, and supervised practicum.
Additional Information	Source: National Uniform Claim Committee (based on the American Reflexology Certification Board definition of Reflexology), 2007 [1/1/2008: new] Additional Resources: Foot and hand reflexology is a scientific art based on the premise that there are zones and reflex areas in the feet and hands which correspond to all body parts. The physical act of applying specific pressures using thumb, finger and hand techniques result in stress reduction which causes a physiological change in the body. Reflexology is a non-invasive, complementary modality involving thumb and finger techniques to apply alternating pressure to reflexes shown on reflex maps of the body located on the feet, hands, and outer ears. The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
