Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

207T00000X Neurological Surgery Physician

| | |
|-----------------------------------|---|
| <i>Taxonomy Code</i> | 207T00000X |
| <i>Status</i> | Active |
| <i>Level</i> | Level II Classification |
| <i>Short Name</i> | Neurological Surgery |
| <i>Full Name</i> | Neurological Surgery Physician |
| <i>Level I, Provider Grouping</i> | Allopathic & Osteopathic Physicians |
| <i>Level II, Classification</i> | Neurological Surgery |
| <i>Description</i> | A neurological surgeon provides the operative and non-operative management (i.e., prevention, diagnosis, evaluation, treatment, critical care, and rehabilitation) of disorders of the central, peripheral, and autonomic nervous systems, including their supporting structures and vascular supply; the evaluation and treatment of pathological processes which modify function or activity of the nervous system; and the operative and non-operative management of pain. A neurological surgeon treats patients with disorders of the nervous system; disorders of the brain, meninges, skull, and their blood supply, including the extracranial carotid and vertebral arteries; disorders of the pituitary gland; disorders of the spinal cord, meninges, and vertebral column, including those which may require treatment by spinal fusion or instrumentation; and disorders of the cranial and spinal nerves throughout their distribution. |

Board certification for Medical Doctors (MDs) is provided by the American Board of Neurological Surgery. |

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
