

2084A2900X
NEUROCRITICAL CARE
Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

2084A2900X Neurocritical Care Physician

<i>Taxonomy Code</i>	2084A2900X
<i>Status</i>	Active
<i>Level</i>	Level III Area of Specialization
<i>Short Name</i>	Neurocritical Care
<i>Full Name</i>	Neurocritical Care Physician
<i>Level I, Provider Grouping</i>	Allopathic & Osteopathic Physicians
<i>Level II, Classification</i>	Psychiatry & Neurology
<i>Description</i>	The medical subspecialty of Neurocritical Care is devoted to the comprehensive, multisystem care of the critically-ill neurological patient. Like other intensivists, the neurointensivist generally assumes the primary role for coordinating the care of his or her patients in the ICU, both the neurological and medical management of the patient. They may also provide consultative services for these patients as requested within the health system.
<i>Additional Information</i>	Source: Adapted from the United Council for Neurologic Subspecialties website definition at: http://www.ucns.org/go/subspecialty/neurocritical [7/1/2016: new]

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
