KINESIOTHERAPIST
Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

226300000X Kinesiotherapist

Taxonomy Code	226300000X
Status	Active
Level	Level II Classification
Short Name	Kinesiotherapist
Full Name	Kinesiotherapist
Level I, Provider Grouping	Respiratory, Developmental, Rehabilitative and Restorative Service Providers
Level II, Classification	Kinesiotherapist
Description	A provider trained and educated in the applied science of medically prescribed therapeutic exercise, education and adapted physical activities designed to improve the quality of line and health of adults and children by developing physical fitness, increasing mobility and independence, and improving psychosocial behavior. The kinesiotherapist seeks a coach-player relationship in which he/she helps the patient/client reach the goal of becoming an independent, self-sustaining person. Kinesiotherapists, as compared with physical therapists, put more emphasis on geriatric care, reconditioning and fitness, and psychiatric care. A large percentage of kinesiotherapists practice in Veterans Administration hospitals.
Additional Information	Source: The Kinesiotherapy Association.

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
