| <i>Status</i> | Active |
| <i>Level</i> | Level III Area of Specialization |
| <i>Short Name</i> | Ambulatory Fertility Facility |
| <i>Full Name</i> | Ambulatory Fertility Facility |
| <i>Level I, Provider Grouping</i> | Ambulatory Health Care Facilities |
| <i>Level II, Classification</i> | Clinic/Center |
| <i>Description</i> | A fertility facility, which may be licensed, registered, or certified in some states, that is not hospital-based, where services are provided at a fixed specific location. An Ambulatory Fertility Facility does not provide overnight accommodations. The following fertility procedures may be performed at an Ambulatory Fertility Facility: In Vitro Fertilization (IVF), Gamete Intrafallopian Transfer (GIFT), Embryo Transfer-Thaw (ET-T), Zygote Intrafallopian Transfer (ZIFT), Donor OOCYTE (DO) |

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
