

**305R00000X**

**PREFERRED PROVIDER ORGANIZATION**

**Healthcare Provider Taxonomy Code Set**

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

## 305R00000X Preferred Provider Organization

<i>Taxonomy Code</i>	305R00000X
<i>Status</i>	Active
<i>Level</i>	Level II Classification
<i>Short Name</i>	Preferred Provider Organization
<i>Full Name</i>	Preferred Provider Organization
<i>Level I, Provider Grouping</i>	Managed Care Organizations
<i>Level II, Classification</i>	Preferred Provider Organization
<i>Description</i>	A group of physicians and/or hospitals who contract with an employer to provide services to their employees. In a PPO, the patient may go to the physician of his/her choice, even if that physician does not participate in the PPO, but the patient receives care at a lower benefit level.
<i>Additional Information</i>	Source: "Glossary of terms used in managed care" Developed by the Managed Care Assembly (MCA) of Medical Group Management Association (MGMA), MGM Journal, September/ October 1995, p. 62

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
