

**333300000X**

**EMERGENCY RESPONSE SYSTEM COMPANIES  
Healthcare Provider Taxonomy Code Set**

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

**333300000X Emergency Response System Companies**

<i>Taxonomy Code</i>	333300000X
<i>Status</i>	Active
<i>Level</i>	Level II Classification
<i>Short Name</i>	Emergency Response System Companies
<i>Full Name</i>	Emergency Response System Companies
<i>Level I, Provider Grouping</i>	Suppliers
<i>Level II, Classification</i>	Emergency Response System Companies
<i>Description</i>	A supplier of a personal emergency response system (PERS), which is an electronic device that enables a patient to receive emergency assistance when needed. The PERS is one of two different methodologies of notification: (1) where the patient summons emergency assistance themselves directly through the device or (2) emergency assistance is summoned through secure activation by the caretaker/guardian, which sends the device location to emergency responders.
<i>Additional Information</i>	Source: National Uniform Claim Committee, 2010 [7/1/2007: new, 7/1/2010: modified]

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
