**COMMUNITY/RETAIL PHARMACY**  
**Healthcare Provider Taxonomy Code Set**

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

## 3336C0003X Community/Retail Pharmacy

<i>Taxonomy Code</i>	3336C0003X
<i>Status</i>	Active
<i>Level</i>	Level III Area of Specialization
<i>Short Name</i>	Community/Retail Pharmacy
<i>Full Name</i>	Community/Retail Pharmacy
<i>Level I, Provider Grouping</i>	Suppliers
<i>Level II, Classification</i>	Pharmacy
<i>Description</i>	A pharmacy where pharmacists store, prepare, and dispense medicinal preparations and/or prescriptions for a local patient population in accordance with federal and state law; counsel patients and caregivers (sometimes independent of the dispensing process); administer vaccinations; and provide other professional services associated with pharmaceutical care such as health screenings, consultative services with other health care providers, collaborative practice, disease state management, and education classes.
<i>Additional Information</i>	Source: Developed by National Council for Prescription Drug Programs (NCPDP), National Home Infusion Association (NHIA), and Pharmacist Services Technical Advisory Coalition (PSTAC) [1/1/2006: new]

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
