3336I0012X INSTITUTIONAL PHARMACY Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

3336I0012X Institutional Pharmacy

Taxonomy Code	3336I0012X
Status	Active
Level	Level III Area of Specialization
Short Name	Institutional Pharmacy
Full Name	Institutional Pharmacy
Level I, Provider Grouping	Suppliers
Level II, Classification	Pharmacy
Description	A pharmacy in a hospital (inpatient) or institution used by pharmacists for the compounding and delivery of medicinal preparations to be administered to the patient by nursing or other authorized personnel. Institutional Pharmacies also counsel patients and caregivers; administer vaccinations; and provide other professional services associated with pharmaceutical care such as health screenings, consultative services with other health care providers, collaborative practice, disease state management, and education classes.
Additional Information	Source: Developed by National Council for Prescription Drug Programs (NCPDP), National Home Infusion Association (NHIA), and Pharmacist Services Technical Advisory Coalition (PSTAC) [1/1/2006: new]

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
