MAIL ORDER PHARMACY
Healthcare Provider Taxonomy Code Set

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

3336M0002X Mail Order Pharmacy

Taxonomy Code	3336M0002X
Status	Active
Level	Level III Area of Specialization
Short Name	Mail Order Pharmacy
Full Name	Mail Order Pharmacy
Level I, Provider Grouping	Suppliers
Level II, Classification	Pharmacy
Description	A pharmacy where pharmacists compound or dispense prescriptions or other medications in accordance with federal and state law, using common carriers to deliver the medications to patient or their caregivers. Mail order pharmacies counsel patients and caregivers (sometimes independent of the dispensing process) through telephone or email contact and provide other professional services associated with pharmaceutical care appropriate to the setting. Mail order pharmacies are licensed as a Mail Order Pharmacy in the state where they are located and may also be licensed or registered as nonresident pharmacies in other states.
Additional Information	Source: Developed by National Council for Prescription Drug Programs (NCPDP), National Home Infusion Association (NHIA), and Pharmacist Services Technical Advisory Coalition (PSTAC) [1/1/2006: new]

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
