**ADVANCED PRACTICE MIDWIFE**

**Healthcare Provider Taxonomy Code Set**

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. Healthcare Provider Taxonomy Codes are designed to categorize the type, classification, and/or specialization of health care providers.

**367A00000X Advanced Practice Midwife**

<i>Taxonomy Code</i>	367A00000X
<i>Status</i>	Active
<i>Level</i>	Level II Classification
<i>Short Name</i>	Advanced Practice Midwife
<i>Full Name</i>	Advanced Practice Midwife
<i>Level I, Provider Grouping</i>	Physician Assistants & Advanced Practice Nursing Providers
<i>Level II, Classification</i>	Advanced Practice Midwife
<i>Description</i>	Advanced practice midwifery encompasses the independent provision of care during pregnancy, childbirth, and the postpartum period; sexual and reproductive health; gynecologic health; and family planning services, including preconception care. Midwives also provide primary care for individuals from adolescence throughout the lifespan as well as care for the healthy newborn during the first 28 days of life. Midwives provide initial and ongoing comprehensive assessment, diagnosis, and treatment. Midwifery care includes health promotion, disease prevention, risk assessment and management, and individualized wellness education and counseling.

The Healthcare Provider Taxonomy Code Set is a hierarchical code set that consists of codes, descriptions, and definitions. That Code Set is available from the Washington Publishing Company. The Code Set is maintained by the National Uniform Claim Committee. The Code Set is a Health Insurance Portability and Accountability (HIPAA) standard code set. As such, it is the only code set that may be used in HIPAA standard transactions to report the type/classification/specialization of a health care provider when such reporting is required.
