

**55714-2309-1**  
**POLLEN WEEDS**  
**National Drug Code Directory**

The Drug Listing Act of 1972 requires registered drug establishments to provide the Food and Drug Administration (FDA) with a current list of all drugs manufactured, prepared, propagated, compounded, or processed by it for commercial distribution. (See Section 510 of the Federal Food, Drug, and Cosmetic Act (Act) (21 U.S.C. § 360)). Drug products are identified and reported using a unique, three-segment number, called the National Drug Code (NDC), which serves as a universal product identifier for drugs. FDA publishes the listed NDC numbers and the information submitted as part of the listing information in the NDC Directory which is updated daily.

| <i>Proprietary Name</i>     | Pollen Weeds                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Also known as the trade name. It is the name of the product chosen by the labeler.                                                                                                                                                                                                                                                              |
| <i>11 Digit NDC Code</i>    | 55714-2309-01                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | It should be noted that many NDCs are displayed on drug packaging in a 10-digit format. Proper billing of an NDC requires an 11-digit number in a 5-4-2 format. Converting NDCs from a 10-digit to 11-digit format requires a strategically placed zero, dependent upon the 10-digit format.                                                    |
