National Drug Code Directory

The Drug Listing Act of 1972 requires registered drug establishments to provide the Food and Drug Administration (FDA) with a current list of all drugs manufactured, prepared, propagated, compounded, or processed by it for commercial distribution. (See Section 510 of the Federal Food, Drug, and Cosmetic Act (Act) (21 U.S.C. § 360)). Drug products are identified and reported using a unique, three-segment number, called the National Drug Code (NDC), which serves as a universal product identifier for drugs. FDA publishes the listed NDC numbers and the information submitted as part of the listing information in the NDC Directory which is updated daily.

63479-0111-1 A11

Labeler Name	Apex Energetics Inc.	Name of Company corresponding to the labeler code segment of the ProductNDC.
NDC Package Code	63479-0111-1	The labeler code, product code, and package code segments of the National Drug Code number, separated by hyphens. Asterisks are no longer used or included within the product and package code segments to indicate certain configurations of the NDC.
Proprietary Name	A11	Also known as the trade name. It is the name of the product chosen by the labeler.
11 Digit NDC Code	63479-0111-01	It should be noted that many NDCs are displayed on drug packaging in a 10-digit format. Proper billing of an NDC requires an 11-digit number in a 5-4-2 format. Converting NDCs from a 10-digit to 11-digit format requires a strategically placed zero, dependent upon the 10-digit format.
Product NDC	63479-0111	The labeler code and product code segments of the National Drug Code number, separated by a hyphen. Asterisks are no longer used or included within the product code segment to indicate certain configurations of the NDC.
Product Type Name	HUMAN OTC DRUG	Indicates the type of product, such as Human Prescription Drug or Human OTC Drug. This data element corresponds to the “Document Type” of the SPL submission for the listing. The complete list of codes and translations can be found at www.fda.gov/edrls under Structured Product Labeling Resources.
Proprietary Name Suffix	Enviro-protect	A suffix to the proprietary name, a value here should be appended to the ProprietaryName field to obtain the complete name of the product. This suffix is often used to distinguish characteristics of a product such as extended release (“XR”) or sleep aid (“PM”). Although many companies follow certain naming conventions for suffices, there is no recognized standard.

Non Proprietary Name	Allium Sativum, Alternaria Alternata, Ascorbicum Acidum, Aspergillus Niger, Aureobasidium Pullulans, Berberis Vulgaris, Cadmium Metallicum, Carboneum Oxygenisatum, Chelidonium Majus, Chlorinum, Cladosporium Phaerospermum, Cochliobolus Sativus, Cochliobolus Spicifer, Gibberella Fujikuroi, House Dust, Lead, Lycopodium Clavatum, Malus Sylvestris, Mucor Plumbeus, Niacin, Penicillium Notatum, Petrolatum, Phenol, Quercus Robur, Rhizopus Stolonifer, Solidago Virgaurea, Tabacum, Vitamin A, Vitamin E	Sometimes called the generic name, this is usually the active ingredient(s) of the product.
Package Description	30 mL in 1 BOTTLE, GLASS (63479-0111-1)	A description of the size and type of packaging in sentence form. Multilevel packages will have the descriptions concatenated together. For example: 4 BOTTLES in 1 CARTON/100 TABLETS in 1 BOTTLE.
Marketing Category Name	UNAPPROVED HOMEOPATHIC	Product types are broken down into several potential Marketing Categories, such as NDA/ANDA/BLA, OTC Monograph, or Unapproved Drug. One and only one Marketing Category may be chosen for a product, not all marketing categories are available to all product types. Currently, only final marketed product categories are included. The complete list of codes and translations can be found at www.fda.gov/edrls under Structured Product Labeling Resources.
Product Marketing Start Date	19880815	This is the date that the labeler indicates was the start of its marketing of the drug product.
Dosage Form Name	SOLUTION/ DROPS	The translation of the DosageForm Code submitted by the firm. The complete list of codes and translations can be found www.fda.gov/edrls under Structured Product Labeling Resources.
Route Name	SUBLINGUAL	The translation of the Route Code submitted by the firm, indicating route of administration. The complete list of codes and translations can be found at www.fda.gov/edrls under Structured Product Labeling Resources.
