SHETU RAKESH PATEL

National Provider Identifiers Registry

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) mandated the adoption of standard unique identifiers for health care providers and health plans. The purpose of these provisions is to improve the efficiency and effectiveness of the electronic transmission of health information. The Centers for Medicare & Medicaid Services (CMS) has developed the National Plan and Provider Enumeration System (NPPES) to assign these unique identifiers.

(See NPI Final Rule for information about subparts.) - A sole proprietorship may or may not have employees. - Often, the IRS assigns an EIN to a sole proprietorship in order to protect the sole proprietor's SSN from disclosure in claims or on W-2s. NPPES does not capture a sole proprietorship's EIN. - Many types of health care providers could be sole proprietorships (for example, group practices, pharmacies, home health agencies).
