MICHELLE STIRES MED, LPC ASSOCIATE
National Provider Identifiers Registry

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) mandated the adoption of standard unique identifiers for health care providers and health plans. The purpose of these provisions is to improve the efficiency and effectiveness of the electronic transmission of health information. The Centers for Medicare & Medicaid Services (CMS) has developed the National Plan and Provider Enumeration System (NPPES) to assign these unique identifiers.

<i>NPI</i>	1689518292	10-position all-numeric identification number assigned by the NPS to uniquely identify a health care provider.
<i>Entity Type</i>	Individual	Code describing the type of health care provider that is being assigned an NPI. Codes are: 1 = (Person): individual human being who furnishes health care; 2 = (Non-person): entity other than an individual human being that furnishes health care (for example, hospital, SNF, hospital subunit, pharmacy, or HMO).
<i>Is Sole Proprietor</i>	Y	Indicate whether provider is a sole proprietor. - A sole proprietor is the sole (the only) owner of a business that is not incorporated; that unincorporated business is a sole proprietorship. - In a sole proprietorship, the sole proprietor owns all of the assets of the business and is solely liable for all of the debts of the business. - There is no difference between a sole proprietorship and a sole proprietor; they are legally a single entity: an individual. - In terms of NPI assignment, a sole proprietor is an Entity type 1 (Individual) and is eligible for only one NPI (the sole proprietorship business is not eligible for its own NPI). - As an individual, a sole proprietorship cannot be a subpart and cannot have subparts. (See NPI Final Rule for information about subparts.) - A sole proprietorship may or may not have employees. - Often, the IRS assigns an EIN to a sole proprietorship in order to protect the sole proprietor's SSN from disclosure in claims or on W-2s. NPPES does not capture a sole proprietorship's EIN. - Many types of health care providers could be sole proprietorships (for example, group practices, pharmacies, home health agencies).
